

November is... Career Development Month!

It is never too early to start thinking of the future. Students invested in career development can explore different interests, invest in a CTE pathway, and gain industry-related skills and experience. **START TODAY** to bring career awareness to your student! Click on the photos or links for more information.

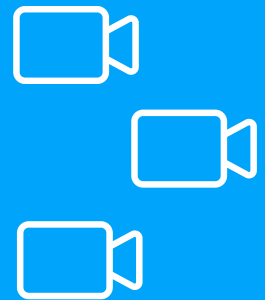

NCDA POETRY & ART CONTEST!

Do you love creating poetry, art, or digital art? K12 students can submit a work of art to the National Career Development Association Poetry and Art Contest. The work must align with this year's theme titled, "Art of the Mind: The Connection Between Wellness & Career Success." Put your skills to the test and represent K12. You could be the next National Winner!

CAREER VIDEOS!

Are you looking to learn more about how to develop skills and experience for your future career? Are you wanting to learn how to support your student during the career exploration process? Here are three career videos that our Stride Student Success Coaches have put together to prepare your high school student for their career journey.

CAREER EXPLORATION ACTIVITIES!

Parents, this is where you can support your student in career development, even if your student is far from graduation! Some ideas include asking them about their likes and dislikes and why, watching TV and discussing the careers represented, and buying coloring books that represent careers. There are plenty of ideas to support your student.

INTERNSHIP TIPS!

Internships are such an amazing way for students to gain relevant experience. Kurt S., a Destinations Academy New Mexico student, shares his insight on "How To Land A Paid Internship." In addition, if you are a high school student interested in digital marketing, learn more about the Stride Student Advisory Council internship. Applications open this month.
